## Summary

---

I am studying as a user-minded Web Developer, prioritizing usability and adaptability during projects. I am ambitious, career-focused, and anxious to obtain an entry-level Software Engineer position to help launch my career while achieving company goals. I am working towards mastering the skills of an Adaptable Software Engineer, ready to support operations from conception through post-release support. Skilled Creator of efficient code and exciting user experiences. Eager to elevate ongoing development projects or create novel software solutions to drive increased usership. I am a professional with an outstanding background in applying a strong work ethic to perform my position's duties. I am a committed employee with a history of meeting company needs with consistent and organized practices. Seven years of expertise in building construction, maintenance, and remodeling have shaped me into a successful creator. I offer progressive experience in owning web-based projects from concept and design through testing, implementation, and client updates.
